# HOW TO USE THIS CATALOG

*From the desk of ... Tim Tygart*

Welcome to our catalog!

We love to meet fellow Chevy fanatics, and talk about our favorite cars. But for many of our customers, the catalog is the only direct contact they will have with our massive inventory of Chevy treasures. So we have worked hard to make it easy to use.

Our warehouse is stuffed full of hard-to-find Chevrolet goodies, which we have been acquiring for over 40 years. That's right; we began in 1968, well before many people thought that Chevy's from the fifties and sixties would ever be collectible.

To you, this means that we have many parts that you simply cannot find anywhere else. Obscure parts that are no longer available from GM, yet are not being reproduced, are often waiting on our shelves for your call. And since we have been in the business for so very long, we also have the finest selection of top quality reproduction parts available anywhere.

Call our sales staff today. You will find them to be courteous and helpful. More importantly, they really know these Chevy parts. Most of them have been with us for many, many years. Get your Chevy parts from fellow Chevy lovers. We appreciate your business.

Sincerely,  
*Tim Tygart*

We have been stockpiling Chevy parts since 1968. That's over 40 years! So we have tens of thousands of hard-to-find New Old Stock (NOS) Chevy parts in stock, awaiting your call.

**Tim Tygart's  
OBSOLETE  
Chevy Parts Co.**

## How to use this catalog

This catalog is arranged just like the Chevrolet factory parts manuals. That means that we list everything by its original factory "Group Number". General Motors came up with their system many years ago: wherein parts were sorted by the various systems they were part of, or "Groups". For example, Electrical parts are all listed under "Group 2.000". Therefore if you need generator brushes, a starter solenoid, or a distributor cap, you would turn to the "2.000" section. When you get to the first page of that section, look for exploded view pictures, in which the various parts are identified with little "call-out" captions, with lines directing your eye to the picture of the part. The caption will list the number within the "0.000" group. From our examples above, let's search for a distributor cap. In the exploded views, you'll find that the distributor cap is described by the photo caption as "2.367 Cap". To find that part in the listings, merely start at the beginning of the 2.000 section and follow numerical order until you get to 2.367, where you will find distributor caps listed. Note that all distributor caps are listed under that identical Group Number. Within the group, you'll find the listing for your car, and the individual cap that you need will have its own unique part number. Use the part number only for your order. Group Numbers are solely for organizing the parts within the catalog to make your searches fast and convenient.

# BODY STYLES

## Tim's Tip:

Chevrolet rolled out a brand new and very successful truck body design in 1948, and continued that design with very little change through the 1953 model year. 1954 saw the introduction of a totally new grille design. When the all-new truck body style was not yet ready for production in early 1955, the '54 design was carried over for the first half of the model year. The radical new 1955 2nd Series truck design became available in the middle of the 1955 model year.

1955 1st Series looks like a 1954 truck, but has an open drive.

1955 2nd Series has the same body style as 1956.

1955 1st Series has 2 round gauge clusters and the 2nd Series has one cluster in a "V" shape.

Generally, parts specified as fitting 1954 will also fit the 1st Series, and parts fitting "1955-59" would be correct for the 2nd Series.

*Our sales staff really knows your Chevrolet. Call them for anything you need, whether you plan to restore or hot rod your project.*

# DECODING VIN NUMBERS

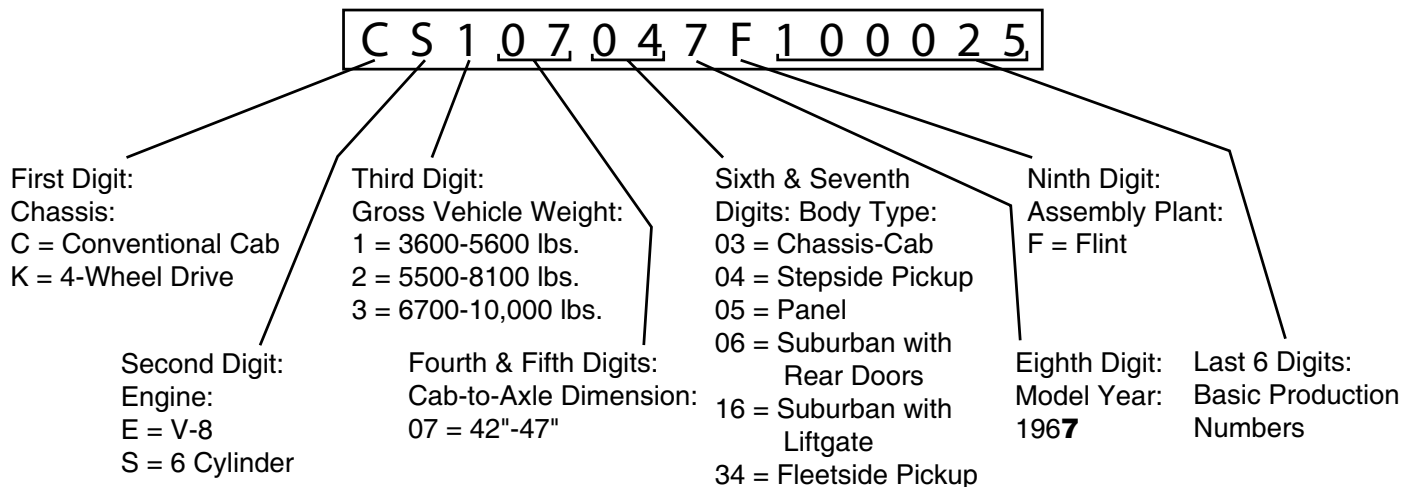

## What year is your truck?

**Be a vintage Chevy detective!** To correctly identify the year of your truck, use the Vehicle Identification Number (VIN) stamped on the plate attached to the left hinge pillar.

54-69	6 cylinder, 10" disc, NOS (price includes \$25.00 core charge) .....	3836097	170.00 ea

### Tim's Tip:

Clutch assemblies are fairly simple, straight-forward mechanical systems... until heat and friction combine to wear them out!

Often someone will install a new clutch disc, only to experience chatter, slipping, or "grabbing" when they reassemble their car or truck. The key to a smooth operating clutch is to replace ALL the worn parts.

Often the springs in the pressure plate lose their tension over time, allowing excessive slippage. The little pilot bushing in the end of the crankshaft is vital too, as it is responsible for keeping the transmission main shaft properly aligned under torque conditions.

The flywheel must have a smooth, crack and heat-spot free surface. It's always wise to have a machine shop turn down the flywheel to achieve a good surface, on every clutch replacement. (Also be sure to check the teeth on the flywheel ring gear while you have the flywheel out.)

The throwout bearing may look good, but it's a good idea to replace it every time you have it out of the vehicle, due to the tremendous heat and friction it must endure.

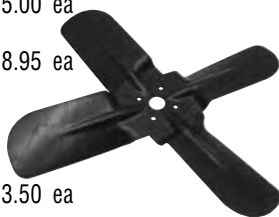

When you have good quality components in new condition in place, then adjust the clutch according to your shop manual. Then you can normally expect good smooth and powerful performance from your clutch system.

# OILING PARTS

## OILING PARTS: 1.426 THRU 1.999

### 1.426 – Oil Pan

1963	with 4-Wheel Drive & 6 cylinder.....	3767946	98.50 ea
------	--------------------------------------	---------	----------

### 1.427 – Oil Pan Through Pipe & Spring

37-39	Trough pipe, All.....	603956	45.00 ea
35-39	Trough pipe spring, All.....	837844	3.00 ea

### 1.428 – Oil Pan Bolt

40-55	Oil pan bolt and lock washer, 1st Series, requires 18.....	839301	1.00 ea
-------	---	--------	---------

### 1.429 – Oil Pan Gasket, Seal

#### Oil Pan Gasket

29-31	All.....	BG26002	17.60 ea
1932	All.....	BG28002	17.60 ea
33-36	All.....	BG28005	17.60 ea
37-39	All.....	BG27007	12.75 ea
40-54	All (pictured).....	BG27013	12.75 ea
55-62	with 235.....	BG27019	13.65 ea

#### Rear Oil Pan Seal

71-72	with 307, 350.....	3887152	25.15 ea
-------	--------------------	---------	----------

### 1.453 – Oil Pan Drain Plug

29-72	All, 1/2" OD x 20 x 13/16".....	839079	4.50 ea
-------	---------------------------------	--------	---------

### 1.456 – Oil Pan Drain Plug Gasket

29-53	.....	344690	1.20 ea
-------	-------	--------	---------

### 1.516 – Oil Dip Stick & Oil Level Tube

#### Oil Dip Stick

35-36	All.....	837662	35.00 ea
40-46	All except Cab-Over Engine.....	1798240	35.00 ea
1955	All 8 cylinder.....	3717868	29.95 ea
56-57	All 8 cylinder.....	3722959	21.95 ea
58-59	3/4 ton Double Duty.....	3740628	14.95 ea
58-64	with 265, 283.....	3846810	30.55 ea
65-66	1/2, 3/4, 1 ton with 283, 327 (pictured).....	10085672	25.00 ea
66-67	3/4, 1 ton Double Duty with 6 cylinder.....	3886083	12.50 ea
67-71	All 6 cylinder with A.C.....	3865661	30.00 ea
68-69	V8 except 396, GM replacement.....	3896912	35.00 ea
70-71	with 307, 350.....	3951576	29.95 ea

#### Oil Level Tube

47-72	Fits most 6 cylinder.....	3828073	26.50 ea
57-72	Lower, 1/2, 3/4, 1 ton, fits most 8 cylinder.....	3951600	12.85 ea
65-66	Upper, All with 283 or 327.....	3865664	18.65 ea
68-72	1968-70 8 cylinder, except 396 & 1971-72 with 307, 350.....	3876870	18.50 ea

### 1.519 – Oil Pipe

36-53	1936-49 All & 1950-53 216 engine, distributor valve through the block to the rocker shaft.....	609912	24.95 ea
-------	--	--------	----------

#### Oil Pump Suction Pipe

1953	.....	3835854	10.95 ea
------	-------	---------	----------

#### Oil Pump Discharge Pipe

54-55	1st Series, 6 cylinder.....	3701552	11.95 ea
-------	-----------------------------	---------	----------

### 1.531 – Rocker Shaft Connector

#### Oil Pan Trough Pipe Spring

40-42	All.....	839233	2.00 ea
-------	----------	--------	---------

#### Rocker Shaft Fitting Sleeve

33-36	All.....	836875	18.50 ea
-------	----------	--------	----------

#### Rocker Shaft Oil Connector Assembly

33-36	All.....	836867	24.50 ea
37-39	All.....	838217	28.95 ea
40-53	All (pictured).....	3835528	35.00 ea
54-58	All 6 cylinder.....	3836566	Inquire

### 1.652 – Oil Pump & Oil Pump Filter Parts

#### Oil Pump

1935	All, gear type.....	604509	130.00 ea
1936	All, gear type.....	837985-1	130.00 ea
37-39	All, gear type.....	838440	130.00 ea
40-53	All, less screen, replacement.....	839157	202.00 ea
1954	6 cylinder.....	3702363	150.00 ea
55-62	6 cylinder.....	3786293	98.95 ea
63-72	All with 6 cylinder.....	3843243	63.75 ea
59-72	with 283, 307, 327 or 350.....	10055850	144.25 ea
67-72	with 396, 400.....	14067529	171.00 ea

#### Oil Filter Unit

33-36	Replacement.....	1652F	85.00 ea
1955	with 8 cylinder, AC oil filter unit.....	5573607	150.00 ea

#### Beehive Oil Filter

*Finned aluminum  
painted body, polished lid*

29 & up (pictured).....	PATOF	249.95 ea
-------------------------	-------	-----------

#### Beehive Oil Filter Element

.....	85100	24.25 ea
-------	-------	----------

37-72 from engine to oil gauge .....	1399637B	20.00 kit
--------------------------------------	----------	-----------

Those little Rubber Bumpers may be the most underrated components on any collector vehicle. They cushion and align everything from hoods and trunks to glove box lids, seat backs, gas filler doors, and even license plates. Often they are missing when a collector acquires a project vehicle, so the new owner doesn't even know they are needed. Get all the rubber bumpers for your Chevrolet today. **See page 137.**

# ELECTRICAL: IGNITION

*The electrical system is often the culprit whenever there is a problem in a vintage car that doesn't get driven on a day-to-day basis. Old contacts corrode, wires get brittle and things don't work right anymore. We recommend that you replace old electrical items on your car whenever you remove them from the car. New quality parts add to the reliability and enjoyment of any old car.*

## IGNITION & GENERATOR: 2.000 THRU 2.348

### 2.004 – Starter Pedal Shaft

55-59 All 6 cylinder (bolts to bellhousing).....3722945 42.50 ea

## The Batter Tender Junior

The Batter Tender Junior is much more than a trickle charger. It has a brain. It's lightweight, compact, and fully automatic; very easy to use, especially in small spaces. It will keep your battery fully charged so that it is ready to go when you are! Available for 6 volt or 12 volt systems.

- Perfect for all lead-acid, flooded or sealed maintenance free batteries (AGM and gel cell).
- Complete 4-step charging program (Initialization, Bulk Charge, Absorption Mode, Float Mode).
- Automatically switches to float / maintenance voltage after fully charging the battery.
- If the battery voltage drops too far under load, full charger output power resumes.
- Solid state two color LED indicates stage of charger
- Spark proof
- Reverse polarity protected
- 12' output cord
- 5 year warranty

Cables are produced in exact cable gauge and color with original part number markings when applicable. Includes secondary lead where required. Most cables have spring steel inserts.

### Tim's Tip:

#### Battery Cables

Did you know that battery cables literally "wear out"? Years of temperature extremes and exposure to toxic battery fumes leaking from the case around battery posts can cause corrosion to seep up underneath the insulation, and wick its way well up into the copper wiring. This, of course, increases the resistance of the cable, which reduces the amount of voltage that can travel through the wire to and from the battery. This is a very common cause of hard-start conditions when the engine is hot... from just being driven, for example. If the battery cables on your Chevy or GMC truck are several years old, it may be a worthwhile investment to replace them with brand new units. It's better than having a won't-start crisis at the cruise-in!

# ELECTRICAL: DISTRIBUTOR

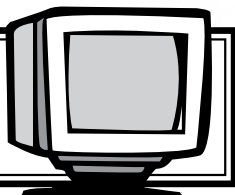

You can read the date code on the little aluminum ID tag on your distributor, to find out when your distributor was manufactured. In the example shown, this distributor has a series of stamped numbers. The first seven digits are just the part number of your distributor, which can be found in a GM parts catalog. The three letters that follow are the date codes, "5H3". The first digit, "5" is the year, in this case 1955. Next, "H" is the eighth letter of the alphabet, and represents the 8th month, August. The "3" merely represents the third day of the month. So, this example distributor was built on August 3rd of 1955.

NOTE: Headlamp rods are not included with switches.

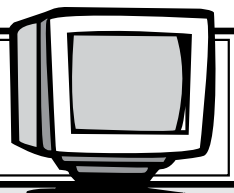

## Tim's Tip:

### Keep Up Your Electrical System

Keep your Chevy or GMC truck's electrical system in shape! Nothing is more embarrassing than showing up at a cruise-in or car show with a beautiful truck that doesn't run well, or fails to start when you hit the key.

Make sure your fan belt is properly tightened. Carefully clean the battery cable ends, and don't put grease or other goo on the battery posts. Inspect and tighten all wire connections; including the vital ground straps. Make sure you have a good, functioning voltage regulator and generator (or alternator). Charge your battery, and have it tested by professionals with testing equipment. Check ignition wires for corrosion, and use a meter to check for conductivity. Look for cracks or carbon lines in your distributor cap and rotor. Replace points, condenser, and rotor annually. Examine your spark plugs for evidence of clean firing... or problems. If you're not sure how to do the testing, get a manual from this Obsolete Chevy Parts catalog, or take your truck to a skilled professional mechanic. Then, the next time you get ready to go to a car show, you'll know your truck is as ready as you are.

Order your parts online right now, at  
**www.obschevy.com**  
It's fast, easy and convenient!

# ELECTRICAL: PARK LAMPS & LENSES

## Lights & Lenses

*The various lights and reflectors on your truck are common focal points of interest, especially at cruise-ins and other evening activities. Beautiful and bright lenses with correct logos as original set off the appearance of any paint job... even older paint. In the daytime people will notice cracked, faded, or shrunk lenses and gaskets, while at night the eyes of the whole world will be drawn to any dim or flickering lights. Brighten up your Chevy or GMC truck with beautiful, brand new light assemblies, lenses, sockets, harnesses, bezels, reflectors, and other critical components of your lighting system.*

## 2.575 – Side Marker & Cab Lamps, Flasher Knob

### Side Marker Lamp

71-72	Blazer, for replacement plastic gas tank .....	2042S	41.95	pr

## Warning! Danger!

*Obviously, gasoline is highly flammable and explosive. Nevertheless, each year lives and property are lost due to careless handling of gasoline around collector vehicles. NEVER use an incandescent light anywhere around gasoline or fuel tanks... including trouble lights. Cool gasoline will cause a hot light bulb to explode, which can be fatal. Unless you know exactly how to safely remove or repair a used gas tank, leave that job to professionals.*

## Tim's Tip:

### **GAS GAUGE & SENDING UNIT TIPS:**

These simple procedures will help you determine if you need to replace the dash gauge or the sending unit in the tank.

#### **Trouble Shooting:**

When you turn the ignition key on, what does your gauge needle do?

#### **Gauge needle does not move:**

Gauge and sending unit may both be defective. Take the sending unit wire off at the tank. Turn ignition switch on, if the gauge needle does not move the gauge is defective. If the needle goes to full, ground the sending unit wire to a body ground, needle should read empty. If this happens, the sending unit is defective.

#### **Gauge needle stays on full:**

Take the sending unit wire off at the tank and turn the ignition switch on. If the gauge goes to Full, ground the sending unit wire to a body ground and gauge needle should go to empty. If so, the sending unit is defective. After 1964 gas gauges and sending units are not 90 ohms. Aftermarket gauges are 180 or 240 ohms

#### **More troubleshooting hints:**

- Always check wiring, make sure the gauge is getting power.
- Check ground. The gauge cluster needs to be grounded. We always paint everything when restoring our own vehicles. If you have an electrical problem, always check for a grounding problem first.
- Add a ground wire to your sending unit. Most vehicles do not have this wire. Go from one of the mounting bolts over to the body.

#### **Tank Sending Unit Trouble Shooting:**

Remove the sending unit from the tank. Use a good ohm meter. It should be able to check continuity down to X1. If the meter only goes X10, the needle will not move enough for you to see it.

#### **Installing a new sending unit:**

Before installing sending unit in the tank, hook up the wire from the dash gauge. Run a ground wire over to the body and turn the ignition switch on. Move the float up and down. Check the dash gauge to make sure it is working properly

#### **12 Volt Systems on original 6 volt vehicles**

Tank sending unit will work on 6 or 12 volts, but a 6 volt dash gauge will not work with a 12 volt system without installing a voltage reducer, item #EL110. This reducer is for the gas gauge only. If your dash gauge has already been damaged, you can have your old one rebuilt and converted to 12 volts. 1947-53 Truck gas gauges have been reproduced in both 6 and 12 volts.

1947-59 original gas gauge had a round button in the back which grounded the gauge to the case. On the reproduction 1947-59 gas gauges there is an "H shaped" piece of metal between the mounting studs. Make sure when you mount the gauge in your case that there is no paint where the "H" plate is going to make contact with the case. If the gauge is not grounded to the case, it will not work. New style reproduction gauge needles will not go to empty when the ignition is off.

#### **Ground Plate**

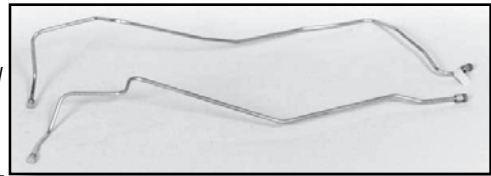

Looks like an "H"

Back view of the reproduction gauge

# FUEL, BRAKE & ENGINE LINES

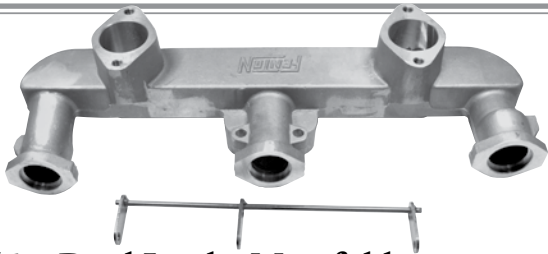

Replace rusty and weakened Brake Lines, Fuel Lines, and Engine Lines today. Original Brake Lines are a no-brainer for most restorers, since they know that years of rust on the outside, plus muck and moisture on the inside, will eventually cause leaks or sudden failures under the massive hydraulic pressure. But Fuel System Lines are also subject to many problems, with rust on the outside, and unwanted moisture from the fuel tank collecting on the inside. Plus, there are those common bends, kinks, and even cut-offs performed by amateur mechanics over the long service lives of many trucks. Obviously, Engine Lines play critical roles in the daily performance of any engine, whether they are vacuum lines, oil lines or heat choke tubes. Replace old rusty, weakened, kinked, or damaged lines in your Chevrolet or GMC truck today, with these top quality reproduction lines in either original plated steel or unpolished stainless steel, for permanent performance and appearance.

We also offer line kits in metal or stainless steel (add SS to part number) Specify exact year, wheelbase and engine size when ordering. These kits are special order. Delivery time is usually 2-3 weeks.

## Tim's Tip:

### Don't forget the Fuel Pump!

Are you replacing a gas tank or sending unit, due to damage from rust and muck in the tank? This is a common problem in any old vehicle, especially trucks. Keep in mind that rust and muck from your tank has been pumped through your Fuel Pump and Carburetor, too. To permanently rid your fuel system of damage from debris, replace your Fuel Pump at the same time, and rebuild your Carburetor.

See page 45.

### Obsolete Chevy Parts!

*See pages 91-93*

*One of the most common causes of poor engine performance is the carburetor. This is especially true of older collector vehicles, which spend much of their lives sitting silently in a garage. After several weeks, old gasoline begins to break down and turn to "varnish" in your fuel system, which will clog up the tiny jets and orifices in the carburetor. Rust, moisture, and debris gather in the tank, and then get pumped into the poor carburetor every time you start the engine. Years of alternating between soaking in gas and then drying out, and then soaking yet again will ruin the gaskets in any carburetor too. Rebuild the carburetor in your favorite Chevy with one of our complete Carburetor Gasket Sets, for smooth reliable performance on the road. Or, better yet, order a newly Rebuilt Carburetor for convenient bolt-on installation.*

# TRANSMISSION

## TRANSMISSION PARTS, CASES, MOUNTS & LEVERS:

*We have listed basically 3-speed transmission parts. Please inquire on 4-speed, overdrive or heavy duty parts.*

### 4.004 – Shifting Housing, Bearing & Washer Kit

#### Gearshift Housing

37-47	1937-39 & 1940-47 1/2, 3/4, 1 ton with floor 3-speed, cast	FM174	32.50 ea
-------	--	-------	----------

#### Transmission Small Parts Kit

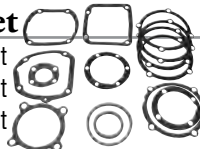

*Includes thrust washers, lock rings for bearings, set of 14 needle bearings, also cluster gear bearings.*

41-54	1/2, 3/4, 1 ton with 3-speed	3692617	50.00 kit
55-62	All with 3-speed	3725035	44.50 kit

### 4.005 – Transmission Gasket Set

29-31	All	BG7026	21.50 set
31-47	All with 4-speed	BG7023	21.50 set
32-36	All with 3-speed	BG6029	17.60 set
37-54	All 3-speed, also includes "U"-joint ball seals (pictured)	BG5180U	17.60 set
48-67	All with 4-speed, except with close ratio	BG10062	10.85 set
55-66	3-speed	BG6162	9.75 set
67-72	3-speed	BG8146	13.65 set

### 4.006 – Gearshift Lever Swivel, Gearshift Lever, Gearshift Lever Knob

#### Gearshift Lever Swivel

54-56	with Hydramatic Transmission	3701570	9.95 ea
55-56	3-speed (pictured)	3713934	24.95 ea
57-59	3-speed	3716522	18.50 ea

#### Gearshift Lever

60-66	All with 3-speed or automatic transmission	3816227	23.00 ea
67-68	1/2, 3/4 ton with 3-speed or automatic transmission, without tilt wheel	3902560	21.60 ea
69-70	All with 3-speed, automatic transmission, & Turbo-Hydramatic, except tilt wheel (pictured)	69-7213-SLNT	21.60 ea
71-72	All with 3-speed, PowerGlide, without tilt wheel	71-7213-SLNT	21.60 ea
71-72	All with 3-speed, PowerGlide, with tilt wheel	71-7213-SLWT	21.60 ea

#### Tilt Release Lever

67-72	with tilt wheel, with knob, reproduction	CMD2299	14.00 ea
-------	--	---------	----------

### Gearshift Lever Knob

29-47	All Floorshift, black, push-on type (pictured)	KB128	8.50 ea
40-59	with 4-speed, black, threaded type	47-7213	9.25 ea
47-53	Gearshift knob, maroon (pictured)	CET53G00	9.25 ea
1954	Black, 3-speed	CET54G00	7.70 ea
55-59	Gearshift	CET56G00	7.70 ea
60-66	3-speed, replacement for 1965-66, ribbed finish (pictured)	CMD3019	15.80 ea
60-66	With 3-speed, smooth finish (pictured)	60-7214	7.75 ea
67-72	3-speed or automatic, replacement	67-7213	8.00 ea
67-87	Column shift, black, reproduction	67-7213	8.00 ea
71-72	3-speed or automatic transmission, original design knob, reproduction	71-7214-OG	7.70 ea

### 4.007 – Gearshift Control Bushing

54-62	with Hydramatic Transmission	3693802	9.95 ea
-------	------------------------------	---------	---------

### 4.008 – Gearshift Lever Grommet

60-66	except 4-speed (pictured)	C5800	5.00 ea
-------	---------------------------	-------	---------

### 4.012 – Gearshift Lever Housing Parts

38-69	Housing spring, 4-speed	3683582	1.30 ea
38-70	Housing cap, 4 speed	3988627	19.95 ea

### 4.015 – Floor Shift Boot

38-66	4-speed (pictured)	47-7242	9.25 ea
68-72	4-speed and V8 except 396 engine	3922900	18.50 ea
68-70	4-speed with 4 wheel drive	68-7242-4WD	18.50 ea

#### Floor Shift Boot Foam

37-66	1937-46 All, & 1947-66 4-speed	47-35196	4.65 ea
-------	--------------------------------	----------	---------

#### Floor Shift Boot Retainer

47-66	1947-66 4-speed	FSB066R	10.95 ea
-------	-----------------	---------	----------

#### Lower Boot on Transmission

61-72	4-speed	2358354	8.50 ea
-------	---------	---------	---------

#### 4-Wheel Drive Transfer Case

69-70	Blazer, lever boot	3983540	45.00 ea
67-72	Truck, shifter boot	67-7243	18.50 ea

### 4.016 – Gearshift Lever Parts

#### Kit for Gearshift Lever

48-59	All 3-speed	47-7244	21.60 kit
-------	-------------	---------	-----------

#### Gearshift Control Shaft Bushing

48-59	3-speed	620-2210	3.00 pr
-------	---------	----------	---------

#### Upper Shaft in Gearshift Lever Bushing

54-56	3-speed, upper	3720927	3.95 ea
57-59	3-speed	3716518	3.95 ea

# TRANSMISSION

## Gearshift Box Lever

48-55	2nd & 3rd (pictured) .....	3686812	45.00 ea
54-59	3-speed, 1st & reverse .....	3700379	45.00 ea

## 1937-50 Brake Parts

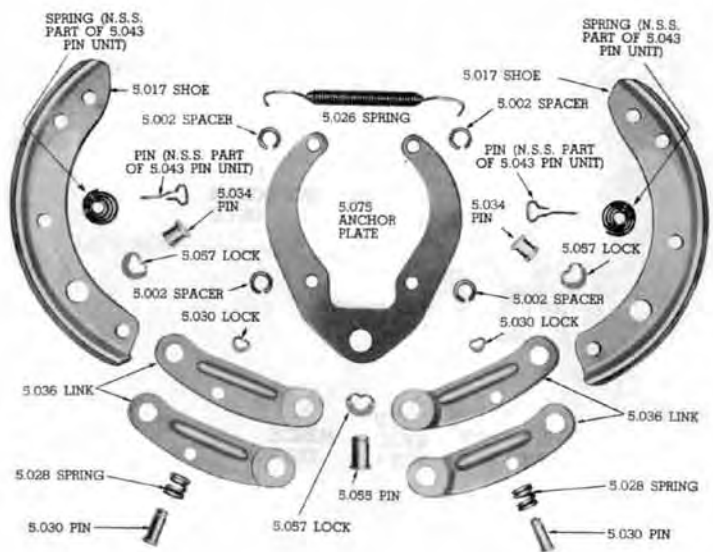

Diagram illustrating the components of a rear wheel assembly, showing the wheel hub, brake shoes, springs, pins, and various fasteners.

Key components labeled include:

- 4.671 GASKET
- 4.680 HOSE
- 8.90J BOLT
- 4.681 SPRING
- 4.670 BOOT
- 4.675 ROD
- PISTON (N.S.S. PART OF 4.665 KIT)
- 5.045 PLATE
- PIN (N.S.S. PART OF 5.055 PIN UNIT)
- 4.666 SCREW
- 4.666 VALVE
- 4.670 BOOT
- 4.675 ROD
- PISTON (N.S.S. PART OF 4.665 KIT)
- 4.667 CUP
- 4.667 CUP
- 5.056 WASHER
- 8.915 NUT
- 8.931 L/WASHER
- 4.669 SPRING
- 5.026 SPRING
- 5.017 BRAKE SHOE
- 5.017 BRAKE SHOE
- 5.001 FLANGE PLATE
- PIN (N.S.S. PART OF 5.043 PIN UNIT)
- SPRING (N.S.S. PART OF 5.043 PIN UNIT)
- 5.188 COVER
- 5.111 SOCKET
- 5.110-SCREW
- 5.111 NUT

## HAND BRAKE SIGNAL, BRAKE CYLINDER, WHEEL CYLINDER, BRAKE CABLES 4.592 THRU 4.898

Everyone knows that the brakes are the most important safety system on any car or truck. Drum brake systems are fine for daily driving in a collector car, IF you keep them in top operating condition. Check inside your master cylinder for signs of muck or rust. Inspect all mechanical parts regularly. Keep brakes properly adjusted. If you are unsure of how to properly maintain your brakes, take your car to a professional technician. And call Obsolete Chevy Parts for all your brake system needs.

### 4.592 – Parking Brake Knob

We can have your old master cylinder rebuilt with a stainless sleeve. These are bead blasted and powder coated. Send your old one to be sleeved, the charge is \$200.00 and requires about 3 weeks.

We also have master cylinders for larger trucks. Please inquire.

-------	-------------------------	-------	-------	----

### Tim's Tip:

**Replace rusty steel hydraulic brake lines on any old car or truck!**

Replacing old Brake Lines is a no-brainer decision for most restorers, since they know that years of rust on the outside, plus muck and moisture on the inside, will eventually cause leaks or sudden failures under the massive hydraulic pressure. Ask about our selection of top quality USA-made reproduction steel or stainless steel hydraulic Brake Lines. We also offer line kits in metal or stainless steel. These kits are special order. Delivery time is usually 2-3 weeks

## Tim's Tip:

**Replace weak and/or rusty brake hardware for reliable brake system performance.**

Everyone knows that brake systems generate tremendous heat inside those sealed brake drums. That heat, along with corrosive dust and elements, tends to weaken springs, corrode pins and clips, stretch cables, and generally wear out the critical hardware components of any brake system. Ensure reliable brake system performance by replacing all the inexpensive clips, springs, pins, and adjusters on your truck, with one of our convenient and cost-effective Brake Hardware Kits today!

Replace rusty and weakened Brake Lines, Fuel Lines, and Engine Lines today. Original Brake Lines are a no-brainer for most restorers, since they know that years of rust on the outside, plus muck and moisture on the inside, will eventually cause leaks or sudden failures under the massive hydraulic pressure. But Fuel System Lines are also subject to many problems, with rust on the outside, and unwanted moisture from the fuel tank collecting on the inside. Plus, there are those common bends, kinks, and even cut-offs performed by amateur mechanics over the long service lives of many trucks. Obviously, Engine Lines play critical roles in the daily performance of any engine, whether they are vacuum lines, oil lines or heat choke tubes. Replace old rusty, weakened, kinked, or damaged lines in your Chevrolet or GMC truck today, with these top quality reproduction lines in either original plated steel or unpolished stainless steel, for permanent performance and appearance.

We also offer line kits in metal or stainless steel (add SS to part number) Specify exact year, wheelbase and engine size when ordering. These kits are special order. Delivery time is usually 2-3 weeks.

# DISC BRAKE KITS

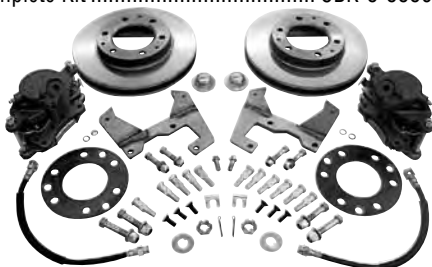

## 1947-59 FRONT DISC BRAKE KITS

### Disc Brake Kit, 5 Lug

**Wheel Kit** includes 11" rotors, calipers and pads, bearings, seals, hoses, grease caps, spindle nuts, brackets & hardware. 5 Lug kits are 5 x 4.75" bolt pattern. Kits are for 1/2 ton trucks and bolt to original hubs. **Complete Kit** also includes 8" booster, master cylinder, prop valve & brackets

47-59	Wheel Kit	WBK5-4759	415.80
47-55	Complete Kit (pictured)	CBK-5-4755	668.99
55-59	Complete Kit	CBK-5-5559	668.99

### Disc Brake Wheel Kit, 6 Lug

Includes 12" rotors, calipers and pads, seals, hoses, grease caps, spindle nuts, brackets and hardware. 6 Lug kits are 5 x 5" bolt pattern. Kit bolts to original hubs. We suggest using the tapered roller bearing kit. Kits are for 1/2 ton trucks.

**Complete Kit** also includes 8" booster, master cylinder, prop valve and brackets

49-59	Wheel Kit	WBK6-4959	415.80
47-55	Complete Kit (pictured)	CBK-6-4955	668.99
55-59	Complete Kit	CBK-6-5559	668.99

## Tapered Roller Bearing Conversion Kit

This kit converts the old ball bearing front wheel bearings to tapered roller bearings. Tapered bearings control side loads better and disperse quicker than the original. Great for use with the 6 lug disc brake kits. Kit includes inner bearings, outer bearings and seals.

41-59	1/2 ton	909052S	140.00
-------	---------	---------	--------

## Disc Brake Bracket Kit

Kit mounts to your original spindle. Use late model GM calipers for added clearance when running 14" wheels.

47-59	1/2 ton, 5 lug	DBK54759	142.00
-------	----------------	----------	--------

## 1960-70 FRONT DISC BRAKE KITS

### Disc Brake Wheel Kit

Includes rotors, calipers, bearings, seals, hoses, spindles, grease caps and spindle nuts.

**5 Lug Kits** are 5 x 5" bolt pattern and **6 Lug Kits** are 6 x 5.5" pattern. Kits are for 1/2 ton trucks only and bolt to the original ball joints and tie rod ends.

# DISC BRAKE PARTS

## Power Brake Booster Kits

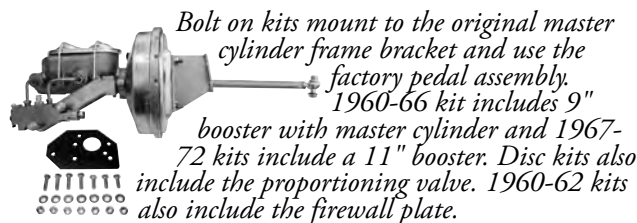

Firewall mounted 8" brake booster allows for extra clearance of valve cover combinations. It's made to be more of a compact unit. Once this assembly is installed it has a triangular setup making it extremely stable. The kit includes 8" booster, proportioning valve with bracket, lines and hardware, master cylinder, firewall bracket and firewall mount with pedal assembly. You will also need brake light switch 403936.

47-53	with front & rear drum brakes .....	BBDF-T4753	406.00
47-53	with front disc & rear drum brakes ....	BB2F-T4753	418.60
47-53	with front & rear disc brakes.....	BB4F-T4753	418.60
	Brake light switch .....	403936	29.75

Add power brakes to your truck without major modifications. These bolt on kits mount to the original master cylinder frame bracket and use the factory pedal assembly. Transmission crossmember may need to be replaced. The kit includes 8" booster, master cylinder. Kits for trucks with disc brakes also include proportioning valve with bracket, lines and hardware.

47-53	with front & rear drum brakes.....	BBD-T4755	285.00
47-53	with front disc & rear drum brakes .....	BB2-T4755	295.99
47-53	with front & rear disc brakes.....	BB4-T4755	295.99

### 5.529 – Ring & Pinion Gear Sets, Aftermarket, for Highway & Cruising Speeds

*Cruise down the highway at 65 MPH!*

*Change your rear end ratio for better performance on the highway. We offer a 3:55 ratio for 1940-54 Trucks and a 3:38 ratio for 1955-59 Trucks. 1954-55 1st Series trucks will have to use a 1940-53 carrier, but unit fits without modifications in the other applications. Also available is an optional installation kit which includes everything to make the rear end new.*

## 5.858 – HUB CAPS, GREASE CAP, HUB CAP DECAL

*Brighten your truck's appearance with beautiful brand new reproduction hubcaps. They will look terrific on your painted wheels, and add an original "new truck" look for all to see. Everyone knows that restoring and replating original hubcaps is simply not cost-effective, and these gorgeous reproductions are an excellent alternative.*

# FRONT SUSPENSION

## 1963-66 1/2 & 3/4 Ton Front Suspension

Everyone knows that the brakes are the most important safety system on any car or truck. Drum brake systems are fine for daily driving in a collector car, IF you keep them in top operating condition. Check inside your master cylinder for signs of muck or rust. Inspect all mechanical parts regularly. Keep brakes properly adjusted. If you are unsure of how to properly maintain your brakes, take your car to a professional technician.

**See our Brakes Section, starting on page 54, with a special section of Disc Brake Parts and Power Disc Brake Kits beginning on page 60**

# FRONT SUSPENSION

## FRONT SUSPENSION & STEERING PARTS: 6.000 THRU 6.326

*By their very nature, trucks get driven hard for long lives over tough terrain. Steering and suspension parts wear heavily, which will ruin the drivability of your favorite Chevy or GMC truck. Obsolete Chevy Parts is proud to offer these premium quality replacement suspension and steering parts to discriminating restorers. Get trucking smoothly again. Call today!*

# PERFORMANCE SUSPENSION

## INDEPENDENT FRONT SUSPENSION KITS BY HEIDT'S - 1937-1959

### MUSTANG II-Type SUSPENSION PACKAGES

*Mustang II Suspension Packages are available in Deluxe or Economy versions and both are available with or without crossmembers. Deluxe packages include plain tubular upper and lower full A-arms, while Economy packages include the new formed steel budget upper and lower full A-arms. Stabilizer Bar Kits and Stabilizer Bar Bracket Kits are available for select applications.*

#### All packages include:

- 9-1/4" five lug rotors
- Stock reconditioned spindles
- Rebuilt Mustang II calipers with brackets & pads
- Manual rack & pinion with tie rod ends & bushings
- Rubber spring cushions
- All mounting hardware
- Bearings and seals
- Springs
- Spindle nut kit

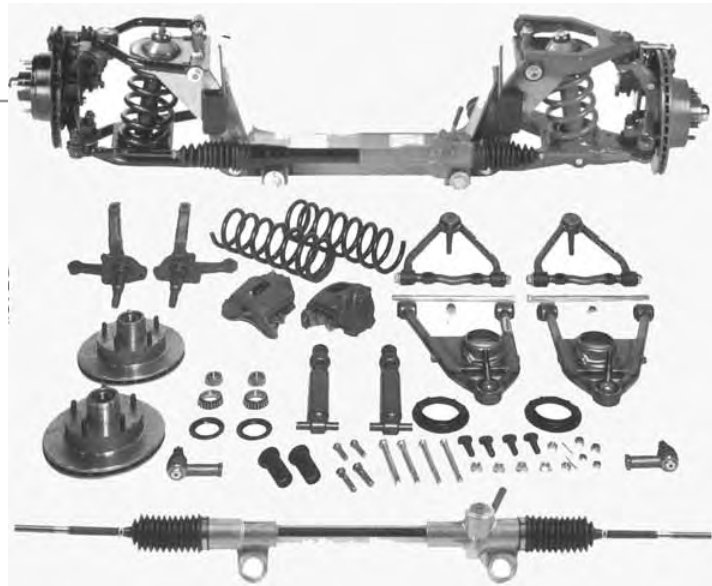

#### Deluxe Package

with Deluxe Crossmember .....	1,865.00
without Crossmember .....	1,415.00

#### Economy Package

with Economy Crossmember .....	1,699.00
without Crossmember .....	1,300.00

#### Optional Upgrades: listed at right

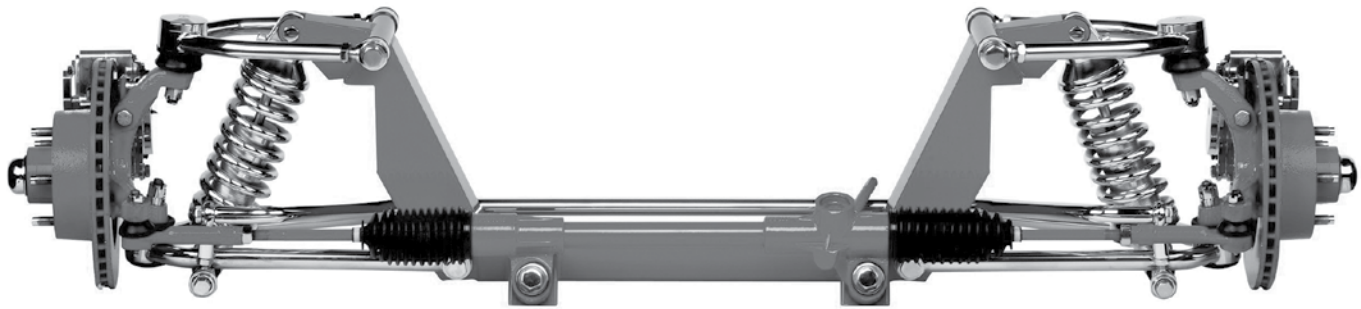

#### Optional Upgrades:

- **Carrera Chrome Coil-Over Shocks**  
with chrome springs..... 330.00
- **QA1 Aluminum Coil-Over Shocks**  
with springs..... 400.00  
Polished, with chrome springs ..... 520.00
- **QA1 Adjustable Shocks**  
Stock replacement shocks ..... 275.00
- **11" Brake Upgrade**  
with Wilwood polished billet 4 piston calipers ..... 230.00
- **Wilwood 11" Hub Upgrade**  
Polished aluminum hub ..... 399.00  
Same hub, cross-drilled & slotted..... 510.00
- **12" Wilwood Upgrade**  
with Wilwood billet 4 piston calipers,  
polished aluminum hubs with cross-drilled  
& slotted rotors ..... 749.00
- **13" Wilwood Big Brake Kit**  
6 Piston Wilwood Big Brake Kit with cross-  
drilled & slotted rotors with black calipers..... 1,549.00  
Same kit with polished calipers..... 1,749.00
- **Rack & Pinion**  
Power rack & pinion ..... 100.00  
Chrome dipped manual rack & pinion ..... 25.00
- **2" Dropped Steel Spindles**..... 140.00
- **Tie Rod Ends**  
Polished stainless steel ..... 78.00
- **Ball Joint Caps**  
Polished stainless steel..... 29.50
- **Polished Stainless Steel A-Arms**  
Deluxe kit..... 160.00

# PERFORMANCE SUSPENSION

## HEIDT'S SUPERIDE II

*SUPERIDE II Independent Front Suspension System by Heidt's for 1947-59 trucks uses the Mustang II dropped spindle to allow for a front mount rack and pinion unit. The upper control arms use threaded adjusters for the wheel alignment. These threaded adjusters, unlike eccentric adjusters, will never "slip" and lose alignment no matter how big a bump you hit. Installing the 3-piece cross member is an easy operation.*

*Kit includes:*

### All packages include:

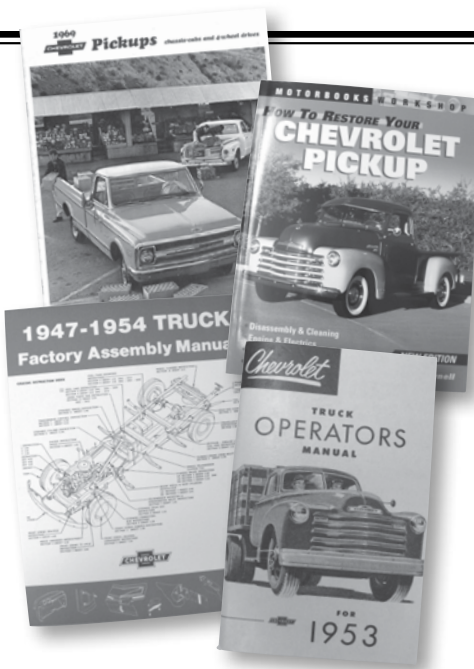

- Main crossmember T.I.G. welded for maximum strength
- One piece dropped Mustang II spindles
- Adjustable tubular arms
- 11" Disc brake vented rotors
- Adjustable coil-over shocks with chrome springs
- Front mount rack and pinion steering
- Stainless steel adjusters with urethane bushings
- Factory ball joints and tie rod ends

### Options Available:

- Polished Shocks
- Plain or Chrome Stabilizer Bar
- 11" Polished Hubs
- 11" Cross-drilled Rotors
- 12" Cross-drilled Rotors
- Narrowed Control Arms
- Stainless Brake Lines
- Power Rack & Pinion
- Stainless Ball Joint Caps

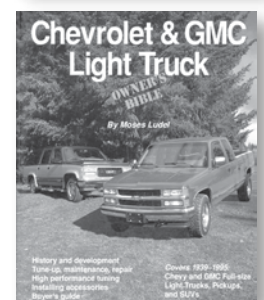

**Specify 1947-54 or 1955-59 Truck**

# PERFORMANCE SUSPENSION

## Rear End Conversion Kit

### 1947-59 Conversion Kits

Allow you to upgrade your existing rear end to Ford 9", GM 10 or 12 bolt, Chrysler 8.75 or any 3" diameter rear end. Kit includes "U"-bolts, tie plates, axle seats, upper and lower shock mounts. Welding required.

47-55 Kit (pictured).....	RCK-4755	137.00
55-59 Kit.....	RCK-5559	106.00

### 1960-70 Conversion Kits

1/2 ton trucks with late model rear end, includes trailing arm, adjustable trac bar with mounting brackets

60-70 .....	RCK-6072	154.00
-------------	----------	--------

## Rear Leaf Spring Seats

If you've changed your truck to a newer rear end, it's a good idea to install new spring seats. Made of 1018 cold roll steel, they have mounting holes to help maintain proper rear axle alignment

60-72 1/2 ton.....	RAS6072	43.00 pr
73-87 1/2 ton.....	RAS6387	29.99 pr

## Rear End "U"-Bolt Kit

Common sense way to strengthen your high-horsepower truck rear end suspension. By using "U"-bolts instead of the standard hex cap screw to hold the rear end to the leaf spring you will eliminate the chance of breaking the spring axle seat. The "U"-bolt will actually clamp the rear end spring tie plate greatly reducing the stress put on the rear axle seats.

60-72 Set of 4 .....	UBK6072	59.95 set
----------------------	---------	-----------

## C-Notch Kit

This weld in kit is highly recommended when lowering the rear of your truck more than 4". Kit includes frame and notching plates and "C" brackets.

55-59 (pictured, right).....	CNK-5559	69.35 kit

## Rear Frame Notch-Out Kit

For trucks that have lowered the rear end more than 4".

Kit includes frame plates, bump stops and hardware for bolt on application.

63-72 1/2 ton truck with rear end lowered 4" or more.....	CNK-6372	115.50 kit
---	----------	------------

## Mono Leaf Springs

### Front Mono Leaf Springs

Lower your 1947 - 1955 1st Series Chevy and GMC truck the right way with these single leaf springs. The springs light-weight design improves handling and are a great way to lower the front of your truck a full 3" and maintain that retro look. Includes new bushings and U-bolts.

Sold as pairs.

47-55 1/2 ton .....	FLS-4755M	536.80 pr
55-59 1/2 ton .....	FMS5559D	536.80 pr

### Rear Mono Leaf Springs

Light weight design improves handling and lowers vehicle 4" to 6". Includes new U-bolts and bushings.

Sold as pairs.

# PERFORMANCE SUSPENSION

## Stage 2 Suspension Kit

Lower your truck and improve the handling all with one kit! Kit includes front and rear coils, front and rear sway bars, front and rear Nitro Slammer shocks, adjustable rear trac bar, instructions and hardware. Specify stock height, 1", 2" or 3" drop for the front and stock, 2", 3", 4", 5" drop for the rear

63-72 1/2 ton truck ..... S2K6372 768.50 kit

## Front End Rebuild Kit

Includes upper and lower ball joints, inner and outer tie rod ends, adjusting sleeves, idler arm, upper and lower control arm bushings, sway bar bushings and bump stops.

60-62 1/2 ton truck (pictured) ..... FRK-6062 737.70 kit  
 63-64 1/2 ton truck ..... FRK-6364 352.70 kit  
 65-66 1/2 ton truck ..... FRK-6566 275.00 kit  
 67-70 1/2 ton truck ..... FRK-6770 244.00 kit  
 71-72 1/2 ton truck ..... FRK-7172 260.00 kit

## Tubular Control Arms

Upper & Lower tubular control arms are designed for trucks that are lowered. The new design helps to correct the camber and ball joint alignment problems.

Extra 2.0 degrees of caster into the arm to make the vehicle drive straight and true. Shafts are included.

63-72 1/2 ton, upper arms ..... TCA-U6372 306.50 pr  
 63-72 1/2 ton, lower arms (pictured)..... TCA-L6372 552.90 pr

## Front Sway Bar Kit

The sway bars are designed to minimize body roll, under-steer and over-steer when cornering, resulting in improved vehicle handling and control. Includes bar, polyurethane bushings and hardware.

47-55 1" bar ..... FSBK-4755 237.00 kit  
 55-59 1" bar ..... FSBK-5559 154.00 kit  
 63-72 1/2, 3/4 or 1 ton truck, 1/8" bar (pictured) ..... FSBK-6372 154.00 kit

## Front Sway Bar Frame Brackets

63-72 Stock height truck, pair ..... SBF6372S 30.80 pr  
 63-72 Lowered trucks, pair ..... SBF6372L 30.80 pr

## Rear Sway Bar Kits

Kits include polyurethane bushings and mounting hardware.

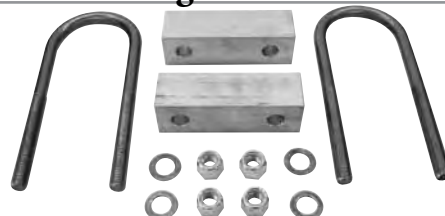

47-55 1/2 ton, 1" bar ..... RSBK4755 220.42 kit  
 55-59 1/2 ton, 1" bar ..... RSBK5559 185.10 kit

# PERFORMANCE SUSPENSION

## Extended Rear Shackle Kit

*Lowers your truck 2", Includes side plates and bolt for both sides.*

55-59 1/2 ton.....RES5559 60.00 pr

*Lower your leaf spring truck the safe and economical way with a set of drop shackles. They offer you the choice of 1" or 2" drop and are direct replacements to the original shackle. Can be used with lowered leaf springs to obtain additional drop. Kit includes polyurethane bushings.*

66-72 1/2 ton, specify 1" or 2" drop.....RES-6672 75.00 pr

## Coil Springs

### Front Coil Springs

*Available in 1", 2", 3" drops. Specify ride height.*

63-72 1/2 ton, Small Block.....FCS6102 115.50 pr

63-72 1/2 ton, Big Block .....6104 146.95 pr

### Rear Coil Springs

*Available in stock height, 2", 3", 4" & 5" drops.*

60-72 1/2 ton, stock height.....RCS603V 138.60 pr

60-72 1/2 ton, specify drop (pictured) .....RCS-603-4 115.50 pr

## Nitro Slammer Shocks

*These shocks have 180 psi cylinders and are designed for use with greater shock angles found on lowered vehicles. The polyurethane bushings also contribute to zero shock lag. Available for all ride heights. Front shocks available in stock, 2.5" or 3" drop. Rear shocks available in stock, 1", 2", 3", 4" or 5" drop. 1947-59 MUST use Front Shock Mount Kits.*

### Front Nitro Slammer Shocks

*Available in stock, 2.5" or 3" drop.*

47-55 1/2 ton, stock height (pictured) .....FS-4755S 60.00 ea

47-55 1/2 ton, lowered.....FS-4755D 60.00 ea

Order your parts online right now, at

**www.obschevy.com**

It's fast, easy and convenient!

Let's face it; trucks were born to work, and people do work them pretty hard. When you look at the knobs and levers on a typical older truck, it's not uncommon to see many of them worn out, broken, or missing. Until recently it has been difficult and expensive to find new dash knobs, and nearly impossible to restore and repair used originals. However, today restorers and collectors of Chevrolet and GMC trucks can turn to the GM truck professionals at Obsolete Chevy Parts to find brand new top quality reproductions at terrific prices. Find them on pages 99-100.

## 6.897 – Steering Idler Arm Spacer

63-66	1/2 ton except 4-Wheel Drive .....	3820389	1.95 ea
-------	------------------------------------	---------	---------

It's the "little details" that make the difference between great restorations and tacky looking old trucks. Kick Panels, Arm Rests, Door Lock Knobs, Window Cranks, and many other "small parts" work together like notes in a song, to provide the harmony of a beautiful "new-truck" interior. Detail the inside of your classic Chevy truck, and watch the spectators' appreciation grow.

Door Parts, pages 108-111.

# SPRINGS

Your Leaf Springs and Coil Springs are the "muscle" of your suspension system, and must support the entire weight of the vehicle and all cargo. Hard cornering, heavy loads, and years of wear and tear will take their toll, and soon the car begins to sag in one place or another. Put a brand new pair of leaf springs or coil springs in your vintage Chevrolet, and enjoy driving it again.

Check out the Performance Suspension parts available on pages 73-77.

# AIR CONDITIONING UNITS

## 1947-59 Air Conditioning Units

### by Vintage Air

*The new GEN-II systems offer true climate control with the use of servo motors and Vintage Air's exclusive solid state circuit board. No cables to route through the firewall for the controls because the heater valve is also servo controlled. No linkages to adjust because the controls are solid state circuit boards and you can mount the control panel almost anywhere in the car. Simply plug and play! Gen-II system does not require engine vacuum, so your climate control won't be affected even when you're powering up a mountain pass! Some installations require additional engine pulleys not included in the kit. Space Saver System available for pre-1947 is an under the dash system.*

### All AC Systems can be ordered with other options:

- Proline Control Panel
- Kick Panel Vents
- Optional Air Vents
- Compressor Mounting Brackets
- Comfort Control Panel
- Polished Compressor
- Black Urethane Compressor
- Pulleys
- Aluminum Clutch Cover

### 1947-54 GEN-II kit includes:

- Electronic Servo Motor Controls, including a heater valve
- Mounts completely behind the dash
- AC exits through side or dash vents
- Compatible with optional Gen-II proline control panels
- 3 Year Warranty
- Floor or dash exit heat
- Dehumidified defrost

### 1955-59 Sure-Fit System includes:

- Evaporator & Brackets
- Compressor & Brackets
- Condenser
- Hi / Lo Safety Switch
- Drier
- Hose Kit

*This system is compatible with the original deluxe control assembly or a replacement control panel may be purchased.*

*\*Prices start at \$1150.00 for a Heat / Cool Unit. Price includes shipping in continental US*

# AIR CONDITIONING UNITS

## 1960-72 Air Conditioning Units

### by Vintage Air

*Vintage Air Sure Fit air conditioning, heating and defrost systems for 1960-72 Trucks are designed specifically for each application. We match the coil and blower to give you the maximum amount of comfort in your vehicle, greater air flow than your OEM system provided and still retain the factory look inside your cab.*

*Factory controls are used. Sure Fit system attaches to existing holes in your dash and firewall.*

### Sure Fit System Features:

- Heat exits onto floor
- Dehumidified Defrost
- Condenser & drier package mounts to the radiator
- Evaporator fits behind the dash
- Specify small or big block compressor bracket & short or long water pump
- High capacity blower & coil
- Available for R-12 Freon and the new 134 A "Environmentally Friendly" refrigerant
- AC exits through dash vents

### Complete Kit

*in picture above, includes evaporator, condenser, drier, compressor, compressor bracket, hose kit and hillo safety switch.*

### Evaporator Kit

*AC, heating and defrost combination. Your original deluxe control assembly in your dash connects to and controls this unit. New control panels can be purchased, if needed. Designed to mount to existing holes in your dash and firewall without drilling or fabrication. Kit comes complete with all mounting brackets, hardware, louvers, duct hose, wiring harness and instructions.*

### Control Panels

*Control Panels are available. See 8.849 in the text of the catalog. heater levers, knobs, and switches can also be purchased separately to refurbish your old control panel, see 8.852. Dash outlets are listed in 9.262 & 9.264.*

*Prices start at \$1150.00 for a Heat / Cool Unit. Includes shipping in continental US*

### Options

*All AC Systems can be ordered with other options:*

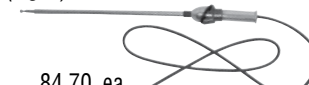

- Proline Control Panel
- Black Urethane Compressor
- Optional Air Vents
- Compressor Mounting Brackets
- Comfort Control Panel
- Aluminum Clutch Cover
- Kick Panel Vents
- Pulleys
- Polished Compressor

## 9.760 – Custom Gauges and Dash Panels

Custom gauges and dash panels by Omega Kustom Instruments are available for 1937-72 Chevy Trucks with a variety of options. Most applications offer a choice of gauge sizes, face color and single or quad gauges. Call our staff for pricing and options for your vehicle.

Cable driven speedometers have a trip odometer and electric programmable speedometers have many functions including trip odometer, hour meter and over speed indicator. They are compatible with all know computers including LS1, LT1 and all Fords. Polished stainless steel bezels have real glass lens. The gauges are offered in black, white or tan. All of the kits include oil, water and fuel senders. Signal generators are required if your transmission has or had a speedometer cable. No signal generator is needed if your transmission is computer controlled or has a built-in signal generator such as an electric 700 R-4. Kits are warranted to the original purchaser for 3 years to be free of defects in material or workmanship.

We also offer LED Indicator Light Spears or just the individual indicator lights for turn signal and high beam. Street Rod Wiring Harnesses are offered on page 134.

Let's face it; trucks were born to work, and people do work them pretty hard. When you look at the knobs and levers on a typical older truck, it's not uncommon to see many of them worn out, broken, or missing. Until recently it has been difficult and expensive to find new dash knobs, and nearly impossible to restore and repair used originals. However, today restorers and collectors of Chevrolet and GMC trucks can turn to the GM truck professionals at Obsolete Chevy Parts to find brand new top quality reproductions at terrific prices. Go ahead, call today!

# WINDSHIELD WIPERS

## Electric "Clean Wipe System"

**NEW! for 1939-46 Trucks with a 12 volt system.**

*A complete wiper package to replace the vacuum motor with a linkage driven system powering 2 wipers blades with 1 electric motor. 2-speed electric motor and mounting bracket are designed for installation in the factory location. The kit includes the motor, rotary switch, wiring harness, mounting brackets, linkage arms, heavy duty wiper transmissions, arms and blades. You will need to drill a hole in the passenger side of the roof and enlarge the hole in the driver side to 5/8" diameter.*

39-46 .....NE3946CT 385.00 kit

## Options for this package:

### Intermittent Delay Switch

3 position: Intermittent, Low, High,  
operates optional washer pump .....

14200 77.00 ea

### Washer Pump Switch

Operates High and  
Low Speed and activates  
washer pump .....

*8 clips, 4 chrome screws and J-nuts for both doors*

55-59 1955 2nd Series - 1959 ..... 19-552 12.35 set

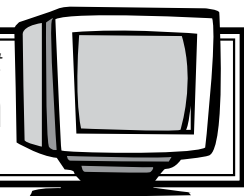

*Remember the lowly clips and fasteners! Body moldings and other trim items are often held firmly in place by small, inexpensive clips and other fasteners. We collectors rarely ever think of them, until they fail. Then an expensive piece of trim may hang loosely from the body, or even fall off while we drive down the road. Don't take chances; order new clips and fasteners for all your trim items.*

*Remember the lowly clips and fasteners! Body moldings and other trim items are often held firmly in place by small, inexpensive clips and other fasteners. We collectors rarely ever think of them, until they fail. Then an expensive piece of trim may hang loosely from the body, or even fall off while we drive down the road. Don't take chances; order new clips and fasteners for all your trim items.*

1950	.....	50DLX	117.90
1950	5-window cab .....	50DLX5W	131.40

Weatherstripping and rubber products are especially prominent on vintage Chevrolet and GMC trucks. There they are, right up front and in the face of everyone who takes a look at your truck. And when the rubber begins to break down, they will see cracks, shrinking, discoloration, old paint overspray, and lots of other flaws. On the other hand, brand new high-quality rubber components will eliminate squeaks, leaks, and general ugliness, while keeping all the body parts on your truck aligned and quiet, as they were when the truck was new. Call today and ask our Chevrolet Truck experts for assistance in picking out the quality rubber products you need for your vintage truck.

#### 1951-55 Kits

Include seals for windshield, rear window, corner gaskets for 5-window cabs, vent window, door, hood to cowl seal, cowl vent, rubber bumpers kit, cab windlace, lower cab windlace, gas neck grommet and glue. Vent rivet tool and rear window tool also included.

##### With Standard Windshield Gasket

## Tim's Tip:

Keep out the wind and weather, while adding a "detailed" appearance to any vintage Chevrolet or GMC truck, with brand new premium quality reproduction Weatherstripping and other Rubber Parts. Eliminate rattles, leaks, cracked and unsightly rubber parts, and wind noise with a few simple steps. Door Weatherstripping will improve the appearance of your open doors, and return that "solid" sound when you push the doors closed. Window Weatherstripping will keep out leaks, eliminate window rattles, and reduce the likelihood of cracked side glass. Those little rubber bumpers must not be overlooked, either. They keep things from rattling or scratching your paint, and are vital for proper fit of various components. Call our experienced sales associates today for all your rubber needs, or visit us online.

*Remember the lowly clips and fasteners! Body moldings and other trim items are often held firmly in place by small, inexpensive clips and other fasteners. We collectors rarely ever think of them, until they fail. Then an expensive piece of trim may hang loosely from the body, or even fall off while we drive down the road. Don't take chances; order new clips and fasteners for all your trim items.*

Those little Rubber Bumpers may be the most under-rated components on any collector vehicle. They cushion and align everything from hoods and trunks to glove box lids, seat backs, gas filler doors, and even license plates. Often they are missing when a collector acquires a project vehicle, so the new owner doesn't even know they are needed. Get all the rubber bumpers for your Chevrolet today.

## Classic Update Series Wiring Harnesses

by American Autowire

The Classic Update Series wiring kit for 1947-66 Chevy and GMC trucks was designed to accommodate all of the most popular accessories. This kit interfaces with aftermarket units by Vintage Air, Hot Rod Air, Pacific Western "Raingear", Dakota Digital, Autometer, Teleflex, Beede, Stewart Warner, Ididit and Flaming River as well as reproduced original tail light, headlight and running light assemblies. There is flexibility in engine compartment and body wire routing for the custom touch.

*Detailed instructions are included.*

69-72	.....	510089	549.00

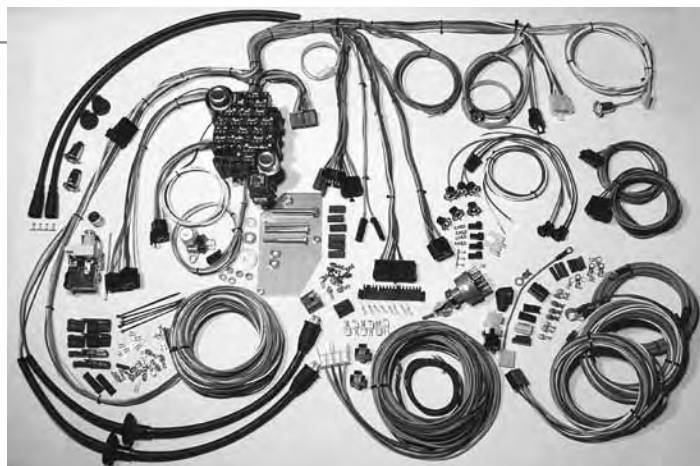

### Classic Update Series for 1947-72 Trucks

#### Features of this harness include:

Accessory disconnect provided for connections to power windows, power seats, cruise control, fuel pump, power door locks, extra radio (CB) or optional power accessory. New floor dimmer switch is provided. Wire length and connection accommodate original floor mount dimmer switch. Standard turn signal flasher, hazard flasher, and horn relay mounted on fuse panel. Fuse box and custom mounting plate are designed for bolt-on under dash installation. All required hardware supplied. Location selected for easy accessibility and clearance of under dash accessories such as all gauge packages, wiper systems, heat and air conditioning systems, as well as after market & original GM tilt steering columns. Heater control panel lighting, power, and blower motor leads are included for original style heaters as well as after market heat and AC updates such as HOTROD AIR, and VINTAGE AIR, etc. Connections are also wired in for the glove box and cigarette lighter. Replacement headlight switch with internal circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included. Extra connectors and instructions are supplied for installation of original headlight switches. Rear body harness assembly is designed to plug into the main harness in the original position, utilizing existing retainers. Flexibility in harness design allows for original or custom routing. Both pickup and suburban models are accommodated. Rear body wiring includes backup light wires and mating connectors for

backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included. Leads and terminals included for jamb switches and dome light. New ignition switch is included with indexed connector. Additional connectors and instructions are provided to use the original ignition switch. Engine wiring includes connectors for points type and H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internal regulated and all "one wire" alternators. GM "CS" series alternator connector available separately. Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected. Instrument Cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. However, the best aspect to the disconnect system is that any gauge cluster package can be easily and neatly wired in. This includes AUTOMETER, CLASSIC INSTRUMENTS, DAKOTA DIGITAL, STEWART WARNER, and VDO, just to name a few. Steering column connectors will plug directly into most after market steering columns as well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be wired by using the supplied mating connector and terminals. Heater control panel lighting, power, and blower motor leads are included for original style heaters as well as after market heat and AC updates such as HOTROD AIR, and VINTAGE AIR, etc. Connections are also wired in

for the glove box and cigarette lighter. Replacement headlight switch with internal circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included. Extra connectors and instructions are supplied for installation of original headlight switches. Rear body harness assembly is designed to plug into the main harness in the original position, utilizing existing retainers. Flexibility in harness design allows for original or custom routing. Both pickup and suburban models are accommodated. Rear body wiring includes backup light wires and mating connectors for backup light leads. License plate lead, connectors, and terminals included. Fuel tank sender wire and terminal included. Leads and terminals included for jamb switches and dome light. New ignition switch is included with indexed connector. Additional connectors and instructions are provided to use the original ignition switch. Engine wiring includes connectors for points type and H.E.I. distributors. Power and tach connectors supplied for GM H.E.I. distributors. Alternator connectors are supplied for GM "SI" series internal regulated and all "one wire" alternators. GM "CS" series alternator connector available separately. Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected. Front lighting includes extra long leads for special routing when custom under hood appearance is desired. All headlight, park light and directional light connectors and terminals are provided, as well as wiring for electric engine fan (usually recommended with AC). Don't forget the relay to help satisfy those hungry accessories.

## FACTORY FIT HARNESSES

*All harnesses are built to original GM specifications. In the interest of safety and longevity, we will improve upon original design concepts to provide our customers with the highest quality product available.*

### Air Conditioning Harnesses

62-63	1st Design.....	20820	110.00
1964	.....	20815	110.00
65-66	.....	19965	110.00

*Includes #20840 blower switch jumper and #37634 power wire from the horn relay. Requires # 37635 power wire from starter solenoid to the horn relay to complete the circuit*

1967	.....	20825	110.00
1968	.....	20835	110.00
69-70	.....	35260	110.00
71-72	with anti-dieseling relay .....	20805	118.00
1971	without anti-dieseling relay .....	35260	110.00
65-66	A/C power feed wire.....	37635	20.00

### Air Conditioning Jumper Harness

65-66	Blower switch fuse to ignition switch wire assembly .....	20840	10.00
-------	---	-------	-------

### Alternator Conversion Harness

55-56	V8, used with stock harness for internal regulator alternator.....	30360	40.00
57-59	V8, used with stock harness for internal regulator alternator.....	30320	40.00
60-62	V8, used with stock harness when converting from generator to internal regulator alternator.....	31560	40.00
63-72	External regulator to internal "SI" alternator, 1985 and earlier "SI" alternators .....	27555	21.00

### Backup Light Harness

62-66	Rear frame connector to the backup lamps.....	19930	22.00
-------	---	-------	-------

### Backup Light Extension Harness

62-66	Firewall to rear frame connector.....	30645	19.00
-------	---------------------------------------	-------	-------

### Cigarette Lighter Wire

60-66	.....	19935	8.00
-------	-------	-------	------

### Courtesy Light Harness

67-72	Under-the-dash courtesy lights .....	31685	27.00
-------	--------------------------------------	-------	-------

### Courtesy & Dome Light Jumper Harness

67-72	Activates under dash courtesy lights and/or door jam switch for dome light .....	31680	16.00
-------	--	-------	-------

### Dome Light Harness

55-59	.....	34890	18.00
60-66	.....	30620	18.00
67-72	.....	32750	17.00

## Dash Harness

55-56	Original type, 12 volt... 02465	143.00
57-59	..... 02750	143.00
1960	Automatic or manual transmission with directional signals but without dash gauges.....	03130 283.00*
1960	Automatic or manual transmission with directional signals and dash gauges.....	38028 283.00*
1961	Automatic or manual transmission with directional signals .....	03625 272.00*
1962	with gauges or warning lights .....	03985 283.00*
1963	Automatic or manual transmission, with gauges .....	04420 272.00*
1963	Automatic or manual transmission, with warning lights .....	22525 272.00*
64-65	Automatic or manual transmission, with factory gauges.....	18965 272.00*
64-65	Automatic or manual transmission, with warning lights .....	04700 272.00*
1966	Automatic or manual transmission, with factory gauges.....	22570 272.00*
1966	Automatic or manual transmission, with warning lights .....	22560 272.00*
67-68	for Panel & Suburbans with factory gauges.....	33905 381.00
67-68	for Panel & Suburbans with warning lights .....	33910 381.00
67-68	for Pickups with factory gauges .....	33915 367.00
67-68	for Pickups with warning lights (pictured) .....	33920 381.00
1969	for Panel & Suburbans with factory gauges .....	30090 381.00
1969	for Panel & Suburbans with warning lights .....	30095 381.00
69-72	for Pickups & Blazers with factory gauges .....	30100 367.00
69-72	for Pickups & Blazers with warning lights .....	30105 367.00

*\* You will also need the Dash Instrument Cluster Harness*

### Dash Instrument Cluster Harness

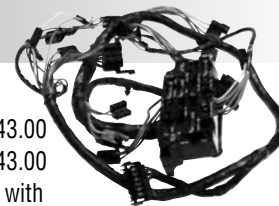

60-61	with directionals & gauges .....	02995 68.00
60-61	with directionals & warning lights .....	02940 68.00
62-63	with factory gauges.....	30800 68.00
62-63	with gauges & overspeed warning light.....	04100 68.00
62-63	with warning lights .....	03660 68.00
64-66	with factory gauges.....	04685 68.00
64-66	with gauges & overspeed warning light.....	04690 68.00
64-66	with warning lights .....	04680 68.00

### Dash Socket with bulb

67-80	.....	67-9267 3.00 ea
-------	-------	-----------------

### Dash Printed Circuit

67-72	with gauges and tachometer .....	67-9266WT 53.90
67-72	with gauges and no tachometer .....	6290458 53.90
67-72	without dash gauges .....	6290457 53.90

1969	Pickup with warning lights, no side markers .....	37665	167.00

## Front Light & Generator Harness

1960	Pickup with warning lights Also requires # 03065 to complete voltage regulator wiring .....	02960	102.00
1960	Pickup with gauges. Also requires # 03065 to complete voltage regulator wiring .....	02990	102.00
61-62	Pickup .....	03590	102.00
1962	Pickup used with stock generator and voltage regulator .....	04025	102.00

## Voltage Regulator Extension Harness

1960	.....	03065	22.00
------	-------	-------	-------

## Park & Directional Light Harness

60-61	.....	38070	35.00
1962	in hood .....	38082	35.00
63-66	in hood .....	02667	35.00

## Radiator & Firewall Wiring Gutter

67-72	Set .....	67-40000	18.50
-------	-----------	----------	-------

## Fuel Tank Sender Harness (Fuel Tank Wire)

55-56	.....	23045	17.00
60-61	Dash harness to tank sender .....	38069	10.00
1962	Fuse box connection to tank sender .....	38242	16.00
1963	Fuse box connection to tank sender .....	38243	16.00
64-66	Fuse box connection to tank sender .....	38244	16.00
67-72	Panels and Suburbans, plugs into #36237 extension .....	36249	11.00
67-72	Pickup .....	23570	16.00

## Headlight Harness

### Headlight Bucket Harness

41-54	.....	500552	23.00 pr
<i>1941-46 trucks must add a parking light wire</i>			
55-57	Set of 2 .....	CE55001	30.00
58-59	Set of 2 .....	19645	35.00

### Headlight Harness

60-61	Dual headlights .....	03340	42.00
1962	Single headlights .....	20690	42.00
63-66	Single headlight .....	04720	42.00

## Heater Harness

60-62	Deluxe heater, no AC .....	38071	23.00
64-66	Deluxe heater, no AC .....	19925	23.00
64-66	with dealer installed deluxe heater, no AC, also includes # 30775 lead wire .....	19970	23.00
67-68	no AC .....	28520	24.00
69-72	no AC .....	23470	24.00

## Heater Blower Motor Wire

64-66	Fuse block to blower switch, no AC .....	30775	8.00
-------	--	-------	------

## Heater Lamp Wire

64-66	Deluxe heater, no AC .....	19940	12.00
-------	----------------------------	-------	-------

## Radio Power Wire

67-72	Radio power wire .....	32120	17.00
-------	------------------------	-------	-------

## Rear Body Light Harness

55-59	Long wheelbase extension, set of 2 .....	34155	14.00
1955	with dual tail, brake and directional lights ..	34370	76.00
55-56	with single tail & brake lights only .....	23135	37.00
1956	with dual tail, brake and directional lights ..	34350	76.00
57-59	with dual tail, brake and directional lights ..	34150	76.00
57-59	with single tail and brake lights only .....	34345	37.00
62-66	Rear frame connector to rear lights .....	30845	49.00
67-72	104"-115" wheel base, firewall or rear frame connector .....	21965	45.00
67-68	Fleetside, rear frame connector to rear lights .....	21855	80.00
67-68	Panel & Suburbans, rear light connector to rear lights, 2 required .....	21975	37.00
1967	Stepside, rear frame connector to rear lights .....	36852	80.00
1968	Stepside, rear frame connector to rear lights .....	23450	80.00
69-72	Blazer and Fleetside, rear frame connector to rear lights .....	22075	92.00
69-72	Panel & Suburban, rear light connector to rear lights, 2 required .....	21905	23.00
69-72	Stepside, rear frame connector to rear lights .....	16095	92.00

47-55	Right side .....	0846-214	30.80	ea

Replace that rusty sheet metal, with brand new replacement steel panels from Obsolete Chevy Parts. Everyone knows that trucks lead a hard life, and many years of mud, snow, sand, gravel, and wet shoes will lead to rusty floor pans, cab corners, door bottoms, and many more rust-prone areas on any truck. Eliminate all those years of rust, and put strong new steel in its place. You'll like the way your GM truck looks when you have gotten rid of holes, plastic body filler, and pop-riveted junk patches from former owners.

**Call today! (800)-248-8785**

Those little Rubber Bumpers may be the most under-rated components on any collector vehicle. They cushion and align everything from hoods and trunks to glove box lids, seat backs, gas filler doors, and even license plates. Often they are missing when a collector acquires a project vehicle, so the new owner doesn't even know they are needed. Get all the rubber bumpers for your Chevrolet today.

**(800)-248-8785**

Remember the lowly clips and fasteners! Body moldings and other trim items are often held firmly in place by small, inexpensive clips and other fasteners. We collectors rarely ever think of them, until they fail. Then an expensive piece of trim may hang loosely from the body, or even fall off while we drive down the road. Don't take chances; order new clips and fasteners for all your trim items.

*It's the "little details" that make the difference between great restorations and tacky looking old trucks. Kick Panels, Arm Rests, Door Lock Knobs, Window Cranks, and many other "small parts" work together like notes in a song, to provide the harmony of a beautiful "new-truck" interior. Detail the inside of your classic Chevy truck, and watch the spectators' appreciation grow.*

*Door Parts, pages 108-111.*

*Holes are punched for attachment to the wheel house and wood bed. Top of panel is embossed with an offset for ease of welding and placement of panel.*

The GM truck restorers at Obsolete Chevy Parts are proud to offer a fine selection of premium quality Sheet Metal Components for vintage Chevrolet and GMC trucks. Made from heavy gauge steel like the OEM parts, these high quality panels are the professional way to make body repairs that should last as long as your truck. Used original parts are scarce and expensive, and may require lots of skilled labor just to make them suitable for use on your project truck.

Call today for the panels you need.

## BED PARTS

### BED PARTS

*Bed Sides will be shipped truckline. Bed sides can be special ordered without pockets, please inquire*

Surely the bed of a vintage pickup truck has to be the most commonly abused portion of any collector vehicle. Most pickups are used hard from the time they leave the new dealership lot, and the poor bed is beaten nearly to death by hauling everything from heavy tools to rocks and gravel. Eliminate old damaged and rusty metal bed parts on your Chevy or GMC truck, with brand new top quality replacements from Obsolete Chevy Parts. And don't forget wooden bed floors either! Nothing looks better in a restored pickup bed than brand new oak flooring. And we now offer many domestic and exotic woods!

See page 163. Call our experts about your GM pickup bed today! **Call today! (800)-248-8785**

### Complete Bed Side

*Stake pockets & side angles are welded on Stepside bedsides*

34-36	1/2 ton, replacement straight type, can't be used with original shocks, left side	102960	320.00 ea	41-46	3/4 ton, right side, no fender holes	110555	425.00 ea

#### Bed Assembly Pamphlet

.....	LI123-D	4.50
-------	---------	------

It's the "little details" that make the difference between great restorations and tacky looking old trucks. Kick Panels, Arm Rests, Door Lock Knobs, Window Cranks, and many other "small parts" work together like notes in a song, to provide the harmony of a beautiful "new-truck" interior. Detail the inside of your classic Chevy truck, and watch the spectators' appreciation grow.

Door Parts, pages 108-111.

# WOOD BED PARTS

## WOOD BED PARTS STEPSIDE & FLEETSIDE

We offer kiln-dried oak wood, cut and grooved for 1934-72 Stepside and Fleetside Short or Long Wheel Base. Fleetside wheel tub area has been cut out and kit includes the short boards in front and behind the tire. We offer the center bed strips in cold-rolled metal or polished stainless steel. All bed strips are square hole punched. 1960-72 Fleetside bed strip sets include 7 long and 4 short strips.

For a really custom look, we offer over 30 domestic and exotic species of woods to choose from, each having their own distinct appearance and grain pattern. Examples of domestic woods include Ash, Curly Maple, Poplar, and Hickory (pictured, left). Exotic wood choices include Bubinga (African Rosewood), Honduras Mahogany, Tigerwood (pictured, right), Zebra Wood, and Brazilian Cherry. Visit our website, [www.obschevy.com](http://www.obschevy.com), for prices, pictures and descriptions of all available woods.

Hickory Wood

Tigerwood

All woods are kiln-dried, then coarse and fine sanded leaving a very smooth surface, ready for finish. As with any kiln-dried wood, you must use a marine spar varnish and cover all sides of the wood. Any uncovered areas will allow the wood to absorb moisture and warp. Wood is 3/4" thick, grooved, sanded and cut to length. No mounting holes are drilled in stock kits, although we can special order some kits with Pre-drilled bed mounting holes as an option.

**NEW!!**

Oak wood and bed strips with hidden fasteners.

Detailed Information on page 165.

Please specify exact year and bed length when ordering.

See Bed Bolt Kits, page 162.

## NEW!!

### Oak Wood Kits with Hidden Fasteners

*This oak bed wood kit is used for custom applications to give a smooth clean look to the bed floor. Polished stainless bed strips with hidden fasteners that adjust to any location. Bed to frame bolts are designed to bolt through the cross sills with the bolt heads hidden under the boards. All stainless steel fasteners are supplied, including polished carriage bolts for bolting the bed side to the bed wood. These kits are available for 1934-72 Chevy and GMC Stepsides and Fleetside, short and long wheel base. Please inquire on any applications not listed below.*

47-53 1/2 ton .....	101303	796.00 kit

63-66 Fleetside, short wheel base .....	101327	901.00 kit
67-72 Stepside, short wheel base .....	101309	744.00 kit

# TAILGATES

*Original and Custom tailgates, tailgate covers and weld-in panels are available for most applications.*

**Tailgates "without latch"** will not have the chain hook slot on the tailgate ends.

**Tailgates "with hidden latch and link system"** are perfect for those that want the traditional tailgate but without the chains which can damage the paint finish. The latches are inside the gate with only the knob visible on the inside. Also includes kit to convert the original bedsides to work with the hidden latch system.

**Tailgates "with handle"** will have the handle on the inside of the bed so the outside will have a smooth finish.

**Flush tailgate** is a double wall gate with no indentation inside or out.

**Louvered tailgates** have 4" wide louvers in a specified pattern. The louvers in the gate will match the spacing in our louvered roll pan.

**Full Tailgate covers** are 18 gauge steel and cover the entire outside portion of the tailgate. It curves up over the top of the gate and down under the bottom. We offer a weld-in panel for the Fleetside trucks which fits into the indented area of the gate.

*Not listed but offered are tailgate covers and weld-in panels for 1941-72 Stepside and Fleetside. Call for details and pricing*

# TAILGATES

## Rear Roll Pan

*These Roll Pans are 18-gauge steel and fit in place of the rear bumper for a smooth effect. You attach these to the rear sill by bolting on (holes are pre-drilled and hardware included) or welding. The Stepside rear pan mounts up on the face of the rear sill instead of beneath it and includes extensions on the sides to fill in the space between the rear sill and the fender. They are offered with or without the license indentation, smooth or louvered, and with or without holes for tag lamps.*

# LITERATURE

Perhaps your most useful "tool" for any restoration or repair is a well-stocked library of reference materials. Most every operation you will need to perform on any vintage Chevrolet has been done many times before by others, and professionals who have done the same jobs over and over have figured out some tips and tricks to get better results. You can benefit from their experience, without having to figure everything out on your own. And what could be more convenient than to have all the specifications, schematics, decoding information, and more right at your fingertips?

Call and order the books you need today.

Automotive books make excellent gifts, too. So the next time someone is nagging you for a list of gift ideas to buy for you, give them a copy of this catalog with your favorite literature marked for their attention.

You'll be glad you did!

# LITERATURE

## I.D. Catalogs

*"Chevrolet ID" catalogs are loaded with specs to decode the VIN codes and trim tags to determine assembly plant, engines, paint colors. Each volume contains photos to make it easy to identify all models.*

1960-69 American Cars ID Catalog (pictured).....	6069CARID	29.95
1964-87 Chevelle ID Catalog.....	6487AID	24.95
1970-79 American Cars ID Catalog.....	7079CARID	29.95

## Chevrolet by the Numbers

*"Chevrolet by the Numbers" catalogs provide the same information as the ID catalog but also include casting numbers for blocks, heads, carburetors, axle codes. This catalog includes photos, diagrams and technical information.*

1955-59 Passenger Car .....	GC59	53.85
1960-64 Car, "Chevrolet by the Numbers" .....	GC64	53.85
1965-69 Car, "Chevrolet by the Numbers" .....	GC69	53.85
1970-75 Car, "Chevrolet by the Numbers" .....	GC75	35.00

You can read the date code on the little aluminum ID tag on your distributor, to find out when your distributor was manufactured. In the example shown, this distributor has a series of stamped numbers. The first seven digits are just the part number of your distributor, which can be found in a GM parts catalog. The three letters that follow are the date codes, "5H3". The first digit, "5" is the year, in this case 1955. Next, "H" is the eighth letter of the alphabet, and represents the 8th month, August. The "3" merely represents the third day of the month. So, this example distributor was built on August 3rd of 1955.

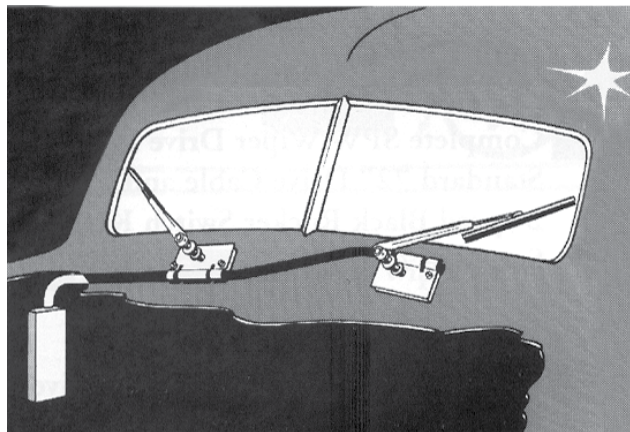

## Dual Windshield Wiper Kit

*These custom wiper units provide a new wiper motor and transmission to replace the original wiper system. The switch and transmissions mount in factory locations. Use your existing bezels and nuts.*

*Includes the motor, 72" cable and wiper shafts.*

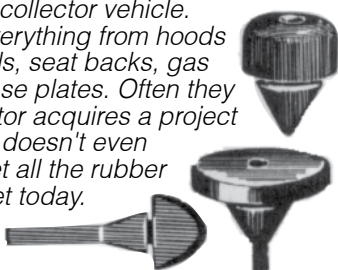

47-54 Trucks, NO SWITCH .....	WWK4754	299.00 kit *
47-54 Trucks, includes 2-speed wiper switch .....	WWK4754-2	325.00 kit
947-54 Trucks, includes 2-speed Intermittent wiper switch .....	WWK4754-21	359.00 kit
55-59 Trucks, NO SWITCH .....	WWK5559	299.00 kit *
55-59 Trucks, includes 2-speed wiper switch .....	WWK5559-2	325.00 kit
55-59 Trucks, includes 2-speed Intermittent wiper switch .....	WWK5559-21	359.00 kit

*\* Kits without a wiper switch come with a diagram to connect to 1984-89 Camaro / Firebird column switch and with generic wiring diagram.*

Those little Rubber Bumpers may be the most underrated components on any collector vehicle. They cushion and align everything from hoods and trunks to glove box lids, seat backs, gas filler doors, and even license plates. Often they are missing when a collector acquires a project vehicle, so the new owner doesn't even know they are needed. Get all the rubber bumpers for your Chevrolet today.

**(800)-248-8785**

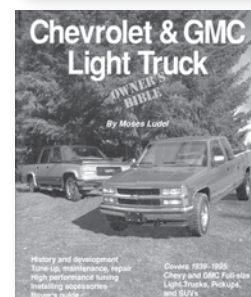

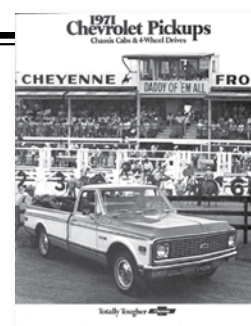

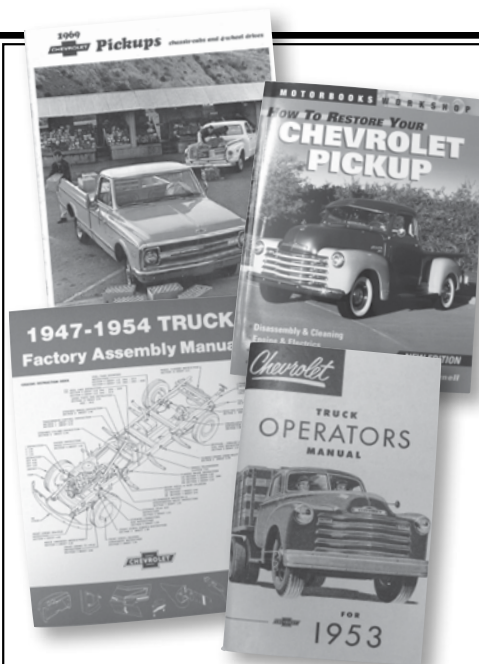

Remember the lowly clips and fasteners! Body moldings and other trim items are often held firmly in place by small, inexpensive clips and other fasteners. We collectors rarely ever think of them, until they fail. Then an expensive piece of trim may hang loosely from the body, or even fall off while we drive down the road. Don't take chances; order new clips and fasteners for all your trim items.

Any professional restorer or long-time auto hobbyist will tell you that the best way to get the most enjoyment from your Chevy is to get the information you need. Books and manuals are the best friend of every car collector or restorer. Add to your own automotive library by visiting our fine selection of books on pages 170-173.

# ORDERING & SHIPPING INFORMATION

Obsolete Parts Co. Inc. has been in business since 1968 offering quality parts for Chevrolets. Owned and operated by Tim Tygart.

**Ordering Methods:** You can place your charge card or COD order (money order or cashier's check) by calling 1-800-248-8785 or by faxing your order to (229) 686-3056. You can also order online at [www.obschevy.com](http://www.obschevy.com). Minimum charge card or COD order is \$10.00. Some items are special order and must be prepaid.

Mail in orders should be addressed to:  
P.O. Box 68, Nashville, Ga 31639-0068.

An order blank is provided on pages 165 and 167. On orders shipped within the states (we do not charge a percentage for shipping) we suggest estimating 15% of orders less than \$100 ; \$18.50 plus 5% for orders over \$100. Minimum shipping charge is \$9.00. Some orders require several boxes or special packaging. Payment of the order plus a \$45 crating fee is required before the order is shipped. International orders will be shipped UPS Air unless another carrier is requested, international customers please also refer to additional information in "Shipping Information". Please use your Customer Number or Phone Number when placing an order.

**Prices:** Due to periodic price increases from our suppliers, prices are subject to change without notice. Updated catalogs are included with an order upon request at no charge. We do not maintain a mailing list.

**Payment:** We accept MasterCard, Visa or Discover card for purchases of \$10 or more. We also ship COD within the continental United States. UPS no longer accepts cash on cod's, money order or cashier's check is required. We also accept money orders, cashiers check or personal check for mail- in orders. Personal checks are subject to be held 10 days for clearance. Charge card or postal money order in U.S. funds is required for Canadian and international customers.

**Shipping Information:** Orders shipped within the U.S. are shipped UPS unless another carrier is requested. Please supply a business shipping address whenever possible. Canadian customers please specify UPS or Post Office. All other international orders will be shipped UPS Air (see additional information below). Some orders are too large or heavy for UPS or Post Office and will be shipped truckline. We charge a \$45.00 crating fee on truckline shipments. If the carrier is unable to deliver the package and it is returned to us, you will be responsible for the freight cost incurred before another order can be shipped.

**International Customers:** All orders will be shipped UPS Air unless another carrier is requested. We will only ship United States Post Office to areas where the packaged can be insured. We must have a written or faxed copy of the order. Phone orders will not be accepted. A processing fee of 10% of the invoice total will be added to all orders.

**Returns:** Special order items, such as interior kits, carpet, radios, and air conditioning units are not returnable. Merchandise must be returned in original condition. We reserve the right to replace incorrect or defective merchandise. Please include a copy of the invoice and state the reason for return. Some returns may be subject to a 15% restocking fee. Items originally purchased by credit card will be credited to the charge card; other returns will be refunded by company check. Refund checks will be mailed the week following the return being received. Our street address is

524 Hazel Avenue, Nashville, Ga 31639

**Backorders:** Any items not available for shipment when your order was placed will be backordered and shipped as soon as possible. You will be charged for the part and shipping cost when the item is shipped. These items will be listed on the invoice as backordered. Please notify us if you wish to cancel a backorder.

**Damage Claims, Shortages & Incorrect Merchandise:** Your order has been pulled, checked and carefully packaged to insure your order is received correctly and in good condition. Please open your package immediately and verify you have received the items you were billed for and that they are in good condition. Before reporting missing parts, inspect all packaging materials since many parts are wrapped in cardboard or paper; also check the box to make sure it has not been opened and retaped and then notify Obsolete Chevrolet. We use brown tape on our packages, UPS will use clear tape to retape an opened package. Damage claims or shortages for UPS or Post Office shipments must be reported within 3 days of receipt of shipment. All shipments are insured. If you are reporting a damage, please retain the box and packaging materials for inspection by the carrier. Notify the carrier of the damage. If it was shipped UPS, call 1-800-742-5877 or contact your local post office for post office deliveries. The carrier will inspect the package and return the damage parts to us. We will ship a replacement part to you. If you believe you have received an incorrect part, call us and we will assist you in getting the correct part. If your order is shipped Truckline, please open and inspect the package before signing and releasing the shipment. If the shipment has been damaged, have the driver detail the damage on the bill of lading before you sign for the package. Call Obsolete Chevrolet and we will handle the claim with the truckline. Save all packaging materials. If you release the package from the truckline without inspecting the part(s), Obsolete Parts Co., Inc and the delivering truckline are not responsible for any damages.

**Guarantee:** All parts are guaranteed against defects in manufacturing and workmanship. Liability of Obsolete Chevrolet is limited to the replacement of the part.

**Company Information:** We are located 220 miles south of Atlanta. If you are traveling South on Interstate 75, exit at #62 to Hwy 82 East. Go approximately 15 miles and turn South on Hwy 129 in Alapaha. Nashville is about 10 miles. Continue South thru Nashville and take a left at Hardee's on Hazel Avenue. We are on the left, about 1 mile. If you are traveling North on Interstate 75, exit #39 and take Hwy 76 East about 12 miles to Nashville. Continue straight through the traffic light which becomes Hazel Avenue, we are located 1 mile on the left.
